Master Classes and Clinical Debates

—
Engage with the controversies shaping modern practice.

Wet Labs and Hands-On Training

—
Refine your technique under expert guidance. Limited-seat workshops (30 participants per session)

Meet Renowned International & National Faculty

—
Learn from Surgeons whose work defines global benchmarks.

Launches and Technology Showcases

—
Discover what's next in Ophthalmic technology. Leading manufacturers debut innovations that will shape surgical practice.

Gala Dinner : A Big Fat Indian Wedding

—
Whip out your best Wedding attire & get the full Indian Wedding Experience.

EXCLUSIVE LAUNCH FOR THE FIRST TIME

ARTEVO 850 3 D MICROSCOPE BY ZEISS

A next-gen ophthalmic surgical microscope offering high-definition 3D visualization, enhanced depth perception, and ergonomic design. Enables surgeons to perform delicate procedures with greater precision and reduces eye strain during long surgeries. Integrated imaging allows live recording and teaching applications.

EVA NEXUS - TDC CUTTER BY ZEISS

A versatile system combining phacoemulsification and vitrectomy in a single platform. Equipped with a new TDC cutter, it delivers ultra-fast, smooth vitreoretinal cutting with minimal traction, enhancing safety in complex retinal and cataract surgeries. Features customizable fluidics and intuitive control for improved surgical efficiency.

VISUMAX 800 HYPEROPIC RELEX SMILE BY ZEISS

Femtosecond laser platform for minimally invasive vision correction. Offers hyperopic and myopic SMILE procedures with high precision, faster recovery, and reduced risk of dry eye compared to traditional LASIK. Provides predictable, flapless corrections for both near- and distance vision.

SOPHI, CENTER OF EXCELLENCE BY RAYNER

A state-of-the-art phacoemulsification system designed for precision and efficiency in cataract surgery. It offers advanced fluidics, customizable settings, and intelligent energy delivery to ensure safe, smooth, and fast lens removal.

In a collaboration with Nethradhama as a Center of Excellence, it emphasizes high surgical standards for training and education in Phaco surgery.

ZEIMER FEMTO Z8 NEO & CLEAR SUPRA

A cutting-edge femtosecond laser platform for ophthalmic surgery, offering high-precision corneal and cataract procedures. Its advanced energy delivery and customizable pulse settings enable minimally invasive, flapless surgery with exceptional accuracy and safety. The Supra CLEAR technology enhances tissue transparency and laser efficiency, improving outcomes and accelerating patient recovery. Ideal for complex corneal and refractive procedures requiring precision and consistency.

NATURO TORIC FULL RANGE EDOF LENS BY CARE GROUP

An advanced intraocular lens (IOL) designed to correct both astigmatism and provide extended depth-of-focus (EDOF). It is designed to deliver clear, high-quality vision across distance, intermediate, and near ranges, reducing dependence on glasses. The lens minimizes visual disturbances like glare and halos, offering a natural visual experience and rapid post-operative recovery, making it ideal for patients seeking full range functional vision.
